

# THE DAILY REGISTER

## JIMMY FLEMING, WIFE KILLED IN ACCIDENT

SCENES LIKE THIS ARE SELDOM SEEN these days, with the combine taking over where the thresher, in above photo, used to do the work. The above photo shows the thresher, powered by tractor obscured in foreground, busy threshing oats this week on the George Barnes farm northwest of Harrisburg. In center, foreground, is Dutch Crest, owner of the threshing equipment, and standing on the tractor is his helper, Fred Younger of Somerset, veteran threshing man. In background are two loads of oats being pitched into thresher by men standing on top of loads. Lower photo shows the oat straw being blown from thresher onto a straw shed. The straw will cover this framework and leave a fine shelter for cattle. (Daily Register Staff Photos)

### Old-Fashioned Threshing With Help Of Neighbors Now Is a Rare Event

Like the automobile that took over from the horse and buggy, the combine took over the grain harvest, and today an old-fashioned threshing is as rare as a hitching post.

But this week they had a threshing up north of town, on the George Barnes farm, in the southwest corner of Raleigh township. There were oats to thresh and G. E. "Dutch" Crest of Pankeyville took out his tractor-powered threshing machine to do the job.

With all the neighbors pitching in, the forty acres of fine oats were threshed in two days time.

A threshing is quite an event. Everybody in the area turns out on threshing day to help. The women all get together, taking with them the things to eat, and a dinner is held at twelve o'clock noon for the two to three score who are a part of the threshing operation.

**Women Prepare Dinner**

The Barnes oat threshing took place on Tuesday and Wednesday. First day the threshing machine was at the Warren Evans place up where Frank Mitchell lives. You just set up your equipment where you want a stack of straw, because there is plenty of the stuff flying around.

The women prepared the dinner both days at the Warren Evans home. Warren and Virgil Evans, who farmed the oats, shared the crop with Barnes.

When The Daily Register reporter arrived at the threshing about 8:30 a. m. Wednesday, the second day of the event, there were eight or ten loads of bundles of oats ready for the thresher. Some were wagons pulled by tractor, the rest were trucks.

In a few minutes Crest had his tractor going and the wide, long belt that rolled from the tractor to thresher soon had all the grain rolled out in an awaiting flat bed truck and the chaff flew from a tunnel in the direction of a straw shed, which it had covered in a matter of time.

The straw shed is a framework over which the straw is sent, and it makes a large straw stack into which cattle can go for shelter.

As the trucks filled with grain they were hauled away, some to be sold, the rest stored. It was learned that the crop was of certified oats for seed, the oats coming from one of the finest stands seen in these parts.

It's a lot different, this threshing business over combining. The combine does it all, from cutting the grain to baling the straw. But with threshing it's different. The grain is cut, shocked, pitched into trucks and wagons and hauled to the thresher.

**First Threshing This Year**

It was explained to this writer that by threshing oats, you get a better grain, as it dries out in the field after being cut and you don't thresh any of it green.

Dutch Crest has had his threshing outfit for 10 years, buying it from Frank Durfee, who in turn got it from Uncle Louis Durfee, who had been a steam threshing machine operator in this area for years.

Crest, who keeps the outfit at Pankeyville, said this was his first threshing job this year. Last year he had none. The year before that

### Eisenhower Sets Up Group to Study Soft Coal Industry

WASHINGTON (AP)—President Eisenhower set up a committee Friday to study the ills of the soft coal industry and recommend possible solutions as soon as possible.

The chief executive established an inter-department committee under Arthur S. Flemming, director of the Office of Defense Mobilization, to "explore the danger to the well-being of the nation created by present conditions in the soft coal industry."

Serving under Flemming will be representatives of the State, Defense, Interior, Commerce and Labor departments.

The President wrote Flemming that the soft coal industry is a "very important part of the defense base" and warrants intensive study of the current poor state of its economic health.

**Senators Dismiss Possibility of Special Session**

WASHINGTON (AP)—Several key senators today privately dismissed the possibility that President Eisenhower would call a special session of Congress this fall if France fails to ratify the European Defense Community treaty.

Secretary of State John Foster Dulles told the Senate Foreign Relations Committee Friday that this country will go ahead with plans to provide West German sovereignty if the French Assembly does not approve the EDC agreement.

This course of action could mean the Senate, or both houses, would have to be recalled to approve any new proposals involved.

The idea of an extra session before the November elections, however, met with little congressional enthusiasm. Some lawmakers considered the discussion simply new administration pressure on the reluctant French to endorse the EDC pact.

### 24th Ozark Tour Promises To Be the Best

#### Official Bus Will Leave Morning Hotel Sunday

The 24th Annual Ozark Tour July 18-20 promises to be one of the best in nearly a quarter of a century of trail-blazing. William H. Farley of Harrisburg, captain of the tour, stated today.

The late L. O. Trigg, Eldorado publisher, started the tour promotion to publicize little known scenic and historic attractions in southern Illinois.

Seen have been high bluffs and waterfalls, canyons and cool springs, Indian camp sites, 9,000 years old, prehistoric stone forts, shelter bluffs and caves, underground streams and works of the white man that have stood since before Illinois was a state.

**Trails Blazed**

Trigg and his followers blazed the trail across trackless wooded hills to Pomona Natural Bridge. They had to cut the way into the present site of Pounds Hollow lake and to the top of War Bluff. They blazed a trail to the top of High Knob and Williams Hill. They camped in what is now the bottom of Crab Orchard lake.

Other spots where they went that are now well known are Burden Falls, Belle Smith Springs, Illinois Iron Furnace, Ferne Clyffe, Old Stone Face, to mention a few.

The present committee, which includes officials of the U. S. Forest Service and Southern Illinois university, has followed the general plan laid out by Trigg. They are aided by the endorsement of Southern Illinois Incorporated and the help of the Illinois Geological Survey, board members of Greater Egypt association, local and metropolitan newspapers, legislators and educators.

**Bus Leaves Sunday**

Friends and families of Ozarkers, past and present, are invited to leave with the official bus from Horning hotel, Harrisburg, at 1:30 p. m. Sunday and to participate in the Little Trigg Tour on the way to Ferne Clyffe park, or to meet the bus there for a basket picnic dinner. Plans will be discussed for the silver anniversary next year. Later color movies and slides of previous tours will be shown.

These tours have been carried on partly in honor of their founder and partly to continue the work for his objectives. Next year, as a further tribute, a bronze plaque will be erected on a boulder somewhere along the Trigg Ozark Trail that was dedicated to his memory.

### Restaurant Operator Dies at McLeansboro

Paul F. Laster, 74, life long resident of McLeansboro and who had operated a restaurant there for many years, died suddenly yesterday at 3 p. m. at his place of business.

The body now lies in state at the Jones funeral home.

The funeral will be Sunday at 2 p. m. at the McLeansboro First Methodist church. Rev. A. B. Clodfelter will officiate, and burial will be in the local Odd Fellows cemetery.

Mr. Laster's restaurant had been in the family for three generations.

### Young German Commits Suicide by Walking Into Lions' Den at Zoo

NUERNBERG, Germany (AP)—A 28-year-old lady lion tamer today how she tried in vain to save a young man who walked deliberately to his death in a lion's den at the zoo.

Miss Margaret Storch leaped into the cage of four lions aroused by the taste of the man's blood while Caesar the Lion carried him "in his jaws—as if he were a doll."

Josef Hajek, 21, jumped over the protective fence at the Nuernberg Zoo, waded neck-high through a moat and walked into the midst of the lions.

"He was felled by one tremendous swat of a paw," Miss Storch said.

A crowd of about 30 persons, petrified with horror, watched Miss Storch go to the man's assistance. But he refused her help and remained to be clawed and bitten to death.

**Relates Incident**

Miss Storch recalled events at the lions' enclosure at the zoo: "First I heard the screams, especially the shrill-pitched cry of a woman."

"I entered the den from the attendants' door in the rear. There, Caesar the Lion carried this man in his jaws—as if he were a doll."

"I approached the four lions, slamming together two metal shields to scare them off. But they would not frighten."

"The young man lay on the

### Dentist Is Found Innocent by Reason Of Insanity for Killing Wife's Suitor

ALLEGAN, Mich. (AP)—A jury of Michigan farm folk today found society dentist Kenneth B. Small innocent by reason of insanity for the murder of his wife's wealthy New York lover.

The jury reached its verdict on the seventh ballot five hours and five minutes after it retired to deliberate the case.

The crowd which overflowed the tiny courtroom cheered wildly when jury foreman Fred Hilbert, a Wayland, Mich., feed dealer, announced the verdict.

Small, confused by the proceedings, snarled briefly and then started to leave the court room apparently to return to his cell in the county jail.

His attorney, Leo Hoffman, grabbed Small and brought him back into the throng of shouting well-wishers.

Small's wife, Edith, 30, whose escapades with air conditioning executive Jules Lack in Florida and Michigan drove the young dentist to insanity and murder, was not present when the verdict was announced.

Mrs. Small left the court room in tears Thursday and has not been seen since.

The acquittal on insanity grounds means Small will have to be confined in an institution until he can prove to the state's satisfaction he now is legally sane.

Prosecutor Dwight M. Cheever moved to have Small immediately committed to the state hospital for the criminally insane.

Hoffman objected and asked Circuit Judge Raymond L. Smith to withhold action until he can file a writ of habeas corpus and requested that Small be kept in the Allegan County jail pending a hearing.

Smith agreed and Small was returned to his cell.

Back in his cell, Small said "I'm happy all over. It's a great sense of relief."

Small's wife had filed for divorce last spring when she told him she was in love with Lack.

Small shot Lack to death Memorial Day weekend at a luxurious summer home overlooking Lake Michigan where Mrs. Small was attending a party with the wealthy New Yorker.

### SALINE COUNTY OIL REPORT: New Record of 30 Oil Operations in County

Saline county sets a new record for oil activity this week with a total of 30 operations throughout the county. There are four first reports, one completed oil well and two dry holes.

On the north edge of Raleigh, George and Wrather Drilling Company's No. 1 Mabel Sronce, NW SE NW, 15-8s-6e, is digging below 2800 feet with Olds rotary tools of Mt. Carmel. They have been on the lease for the past two weeks, but no information was being released until this week. This is an interesting wildcat since it is more than four miles from other production.

Four miles northwest of Eldorado, Calvert Drilling Company completed its No. 2 Ben Davis, B lease, for an initial production of 46 barrels of oil and two barrels of water per day pumping from the upper Cypress sand 2552-59 after fracturing.

**Abandon Tests**

One mile north of Eldorado, Carter Oil has plugged and abandoned its No. 3 Paul Turner, 8-8s-7e, after drilling to a total depth of 2951 through the Aux Vases sand.

Also plugged and abandoned is the Pure Oil No. 2 E. S. Quick, SE SE NE, 5-8s-6e, two miles northwest of Raleigh plugged at a total depth of 3185 through dry McClosky lime. A two hour drill stem test on the Aux Vases sand 3030-46 got 30 feet of mud and 90 feet of salt water, and a test of the Bejoist sand 2804-2930 recovered 7 feet of very heavy mud with a slight show of oil, 30 feet of salty mud and 120 feet of salt water.

In 19-7s-5e, Collins Brothers are still releasing no information on their No. 1 Paul Jones, NE SW NW, two miles east of Thompsonville in the northwest corner of the county.

In 25-7s-6e, four miles northwest of Eldorado, Breuer and Robison have set casing on the Aux Vases lime on their No. 2 Woolard Heirs, and Calvert Drilling-Boling-Levine and Yabrove are cleaning out on their No. 4 Ben Davis, to test the Cypress 2535-50 after a drill stem test recovered 660 feet of gas, 180 feet of muddy oil, with a bottom

### Morse Charges 'Give Away' of Atomic Energy

By United Press

Sen. Wayne Morse charged today that private utility "giants" would wind up with control over atomic energy under President Eisenhower's plan to modernize the nation's atomic laws.

The Oregon Independent bitterly accused the administration of planning to "give away" the taxpayers' stake in nuclear development as the Senate met in an overtime session to speed action on the administration's atomic revision bill.

Morse said the people have invested 12 billion dollars in atomic energy, a resource "which has a potential value greater than that of all the oil, gas, coal and water resources of the nation."

This resource, he charged, would be lost to private interests under a provision of the bill calling for private atomic development.

Morse said the proposal lacks the "traditional safeguards" over private utilities. He also argued that it provides a "built-in subsidy" for big business, by forcing the government to buy privately produced nuclear materials at high "wind-fall" prices.

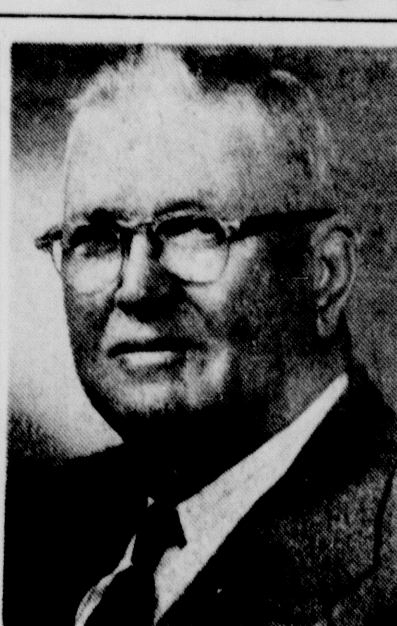

Senate Republican Leader William F. Knowland called the Saturday session after Morse blocked efforts Friday to limit debate on the bill. He called Morse an "obstructionist" who was jeopardizing the President's program.

Other congressional news:

**Housing:** Sen. Irving M. Ives (R-NY) and Rep. Albert M. Rains (D-Ala.) denounced the Senate House compromise on public housing as "worthless" and "pure deception." They said eligibility restrictions would make 35,000 new units available to few persons. The compromise, a sharp setback for President Eisenhower who wanted 140,000 new units, was reached at a conference committee completed work on housing bill.

**McCarthy:** Sen. Joseph R. McCarthy (R-Wis.) said he was ready for a showdown Tuesday on demands for the firing of his subcommittee staff members. Meanwhile, Sen. Ralph E. Flanders (R-Vt.), facing Republican opposition, dropped his attempt to strip McCarthy of his committee chairmanships and called instead on the Senate to censure McCarthy for conduct "unbecoming" a senator.

**Taxes:** A House-Senate conference committee voted a tax break for working parents who must hire babysitters. The conferees adopted the more liberal Senate proposal and drove toward final agreement on the administration's tax revision bill. Still to be settled was the thorny question of dividend tax relief for corporation stockholders.

### Deputy Marshal Office Closed; Small Resigns

The office of United States deputy marshal, which has been situated in Harrisburg for 40 years or more, was closed Thursday, and John Small, who operated the Harrisburg station, has resigned from the service.

Mr. Small, who has been the deputy marshal for this area for 13 years, and who would have been retired automatically under Civil Service regulations July 1, 1956, elected to retire and continue his residence in Harrisburg rather than to exercise his seniority and take a situation at East St. Louis.

Closing of the Harrisburg office is in line with removal of the office of Marshal Vernon Woods from Danville to East St. Louis. For the past 40 years or more the office has been in Danville, headquarters for one of the Federal judges in the eastern Illinois district, which runs from East St. Louis northeast to Danville, covering 45 southern and central Illinois counties.

During that time deputy marshal's offices were situated variously in East St. Louis, Murphysboro, Benton, Cairo and Harrisburg. For the past several years, Harrisburg was the only extreme southern area having an office. Under the new set-up, one deputy will be at Danville, and all others will be at East St. Louis.

Mr. Small, who has been active in governmental and law enforcement activities practically all his life, is a former sheriff of Saline county, was state parole officer and agent for eight years, and has held the situation of deputy marshal since 1941.

Previous to his appointment, Hugh Wasson was deputy marshal for about nine years, and before that time the late Z. T. S. Leitch was deputy marshal for 20 years or more. At one time A. R. Clark of Harrisburg was marshal, but his office was officially in Danville.

### British Group Parlays \$6,000 Into \$672,000 by FHA

WASHINGTON (AP)—Senate investigators were told Friday that a British real estate group parlayed a \$6,000 investment into a \$672,000 profit on a Bayside, N. Y. apartment project with the aid of U. S. government insured mortgages.

But Joseph L. Maged, New York attorney for the Britons, said there was nothing wrong with the operation.

He said indignantly that his clients have just about quit building in this country because "they don't fancy anyone calling them crooks and thieves."

The British group was known to have invested \$6,000 in Alley Park Homes, a luxury apartment development at Bayside, Long Island. They obtained an FHA-guaranteed mortgage for \$6,196,000 on the two buildings involved but built them for \$5,874,836.

The Britons later sold the project for another \$350,000 profit.

Maged said Sir Godfrey Mitchell and Francis Taylor Jr., were among the British stockholders. He identified Taylor as head of one of England's largest construction firms and Mitchell as one of the world's largest realty operators.

**List Applicants for Postmaster at Anna**

WASHINGTON (AP)—The Post Office Department today issued the following list of applicants for the postmastership in Anna, Ill.: Raleigh C. Gurley, William M. Thompson, Ollie B. Davis, J. Frank Keistler, Theodore R. Womick, Kent K. Kelley, Charles E. Resch, Bryan W. Lovelace Jr., William L. Casper, Raymond Hudson and Frank Keistler Jr.

### Word Received Here of Deaths In New Jersey

#### Was Stationed At McGuire AF Base At Fort Dix, N. J.

James P. "Jimmy" Fleming and his wife, the former Phyllis June Yates, were killed in an automobile accident at 1:30 a. m. today in New Jersey, where Fleming is stationed with the U. S. Air Force.

Word of the two deaths was received here in a telegram from Loren Fleming, father of the boy, about 9 a. m.

The telegram, signed by a chaplain at McGuire Air Force Base, Fort Dix, New Jersey, said that the two were killed at 1:30 a. m. today in an automobile accident. No other details were available.

It was learned here that Fleming, 21 years old, and his wife, about 18, reside eight or ten miles from McGuire Field, where he was a member of the field's fire department.

The couple had been married a year and reports here were that they were expecting a child at the time of the tragedy.

Besides his parents, Mr. and Mrs. Loren Fleming, residents of Buena Vista west of Harrisburg, young Fleming is survived by three sisters and two brothers. They are Mrs. Carl (Mary) Winkelman and Mrs. Darrell (Nina) Angelly of Harrisburg, Mrs. John (Deloris) Healey of Middletown, Ohio, and Kenneth and Carl Fleming at home.

Details on the survivors of his wife were incomplete but it was learned that her mother, Mrs. Lee Duke, a former local resident, now lives in Chicago. She also leaves a brother, Andy Yates, in Waukegan, and a sister, Twenette, in Texas.

Young Fleming was employed, before entering the service a little more than two years ago, by the Exide garage, where his father is head of the radiator department. He was also a former Daily Register carrier boy.

### Neighborhood Soil Group Leaders To Meet July 27

Neighborhood group leaders in the Saline County Soil Conservation district will meet at the fairgrounds the evening of July 27 to hear a talk by Dr. Ed Tyner, professor of agronomy at the University of Illinois, and take the information learned back to their respective groups.

Dr. Tyner will discuss efficient use of fertilizer in maintenance of soil fertility.

There are 42 neighborhood groups in the county district and each has a leader. Work of the district is channeled to the participants through these 42 leaders.

The meeting will start at 6 p. m. with a basket dinner for the leaders and their families.

Announcement of this meeting was made by A. A. Gholson, chairman of the board of directors of the Saline County Soil Conservation district.

### 'Robinson Crusoe' Island in Danger of Vanishing Into Sea

VALPARAISO, Chile (AP)—Juan Fernandez Island, believed to be the setting for "Robinson Crusoe," is in danger of vanishing into the sea, government geologists warned today.

They advised the Lands Ministry that the barren island in the Pacific some 300 miles west of here is being eroded by winds and part of it already has vanished. "Urgent action" was proposed to halt the erosion.

Alexander Selkirk, an Englishman cast away on the island from 1704 to 1709, was believed to have inspired Daniel Defoe to write the famed novel, "Robinson Crusoe."

**Rites for Stillborn Infant at Equality**

A brief funeral service was held today at 2 p. m. at St. Joseph's Catholic church in Equality for the stillborn infant daughter of Mr. and Mrs. Ben DeVous, Equality. Burial was in St. Joseph cemetery.

### The Weather

# Items of Agricultural Interest

**PLAGUED**—Some parts of northern Texas are beset by a plague of grasshoppers that threatens large crop losses. The invasion is especially bad in the Dallas area. Above, Louis Turner, of Wylie, north of Dallas, shows his corn, stripped of leaves and fruiting ears. He said: "Nothing's left and it didn't take them long to do it." The hoppers, by the thousands, are attacking corn, alfalfa, cotton and vegetable crops. (Exclusive NEA Photo)

## SIU Country Column

By Albert Meyer  
Tramping through weeds and briars and battling chiggers to find and pick wild blackberries at this time of the year ought to turn one's thoughts to the more comfortable experience of picking luscious, ripe berries from a cultivated, well-pruned convenient patch of tame blackberries. Now is a good time to make plans to set a small plot next winter for home use. Several good varieties are available.

With small grain harvests practically over, this is the time to acquire straw needed for mulching strawberry fields next autumn and winter. Distribute now the bales of straw in convenient spots about the garden or field where they will be used and let them lie exposed to the weather. Rains will sprout and kill the grain left in the straw before it is spread on the field and prevent the grain from becoming weeds in the fruit plot next season.

Spring flowering bulb-type plants are developing dry leaves by this time going into dormancy until next spring. If some are desired in new areas around the home or garden, now is a good time to transplant them.

A word of warning to farmers who have a seeding of sudangrass coming on for lush summer pasture. Do not turn cows in until the forage plants are at least 18 inches tall.

Prices on utility grade cows usually reach a low point in November. Therefore, it is a good idea to sell the low producers as soon as possible, culling from the herd the cows that cull the profits. Such culling is good business any time. A cow that makes no money for the dairymen also is a hindrance to the dairy industry as a whole because her milk production is helping build up the surplus.

Undoubtedly Americans need to drink more milk to help utilize the production and hold down the surplus. The annual average per capita consumption of milk in all forms has declined from 752 to 689 pounds during the last 10 years.

There are several hot weather hints for the poultry flock owners. 1. The hen, like nearly any animal, enjoys relaxing in a cool shady spot. 2. Cooling eggs promptly after gathering and before putting into cases helps retain good egg quality. 3. More room is needed in shipping coops during hot weather because overcrowding may cause heavy losses. 4. The hen that quits laying and molts in July usually lays until January—nearly 180 days. Sell her.

A University of Illinois extension forester says that you can save from one-third to one-half of your farm building costs by using home-grown lumber.

Young forest trees need protection from fire and livestock.

## Begin Pasture Renovation Now

CARBONDALE, Ill.—Renovation of rundown pastures on land unsuited for cultivation should be started immediately, E. F. Sullivan, Southern Illinois University agronomist, said today.

Such a renovation procedure will restore old pastures that support only thin sods of broomsedge, poverty grass, and remnants of desirable grasses into pastures of greater productivity with little danger of soil losses, he pointed out.

The process involves disking, spring tooth harrowing, or otherwise tearing up the old sod during the summer after the spring growth of grass has been grazed away. The work should get underway by mid-summer. Lime and fertilizer must be applied well in advance of the last disking and mixed well with the soil. The cultivation process leaves much of the old plant residue exposed for erosion prevention.

Seeding should be just prior to the best conditions for growth of the pasture mixture used. Grasses and alfalfa normally are seeded in September and lespedeza in March. A companion crop seeded at the rate of one bushel per acre may be added on steep slopes to help prevent erosion. Renovation seed mixtures should be made up of the taller growing, deeper rooted grasses and legumes, including alfalfa, ladino clover, red clover, lespedeza, tall fescue, orchard grass, and others.

The renovated pasture should be protected from grazing until the seeding is well established—usually until midsummer of the first year. Controlled grazing should be followed to foster better pasture growth.

## Well-Managed Farms To Be Profitable

URBANA—Barring catastrophe, well-managed farms will be profitable in 1954 in spite of fears raised by surpluses, lower prices and high costs.

Economic conditions are important, of course, but the most profitable adjustment for the Illinois farmer this year is the same as always—adjustment of his crops to the quality of his land.

P. E. Johnston, University of Illinois farm economist, reports that's what a study of hundreds of Illinois farm records show.

He offers one guiding principle to follow in making this adjustment: Grow as many acres of the highest value crops as your farm can stand and yet keep erosion under control.

According to the records, corn has the highest value, followed in order by soybeans, clover, wheat and oats. At prices expected in 1954, you can look for about these profits per acre: \$30 for 70 bushel corn, \$24 for 32-bushel soybeans, \$10 for two-ton clover, \$9 for 29-bushel wheat and \$4 for 48-bushel oats.

Profits are figured on \$1.35 for corn, \$2.30 for soybean, \$22 for clover hay, \$1.89 for wheat and 70 cents for oats.

Johnston figures profits on the basis of records kept by coopera-

Chill candles for 24 hours before using to get an even, non-drip burn.

## Nearly 2,000 Attend Soils Field Meetings

Nearly 2,000 farmers who attended a series of 12 meetings at the University of Illinois Soil Experiment Fields over the state this spring, learned that most Illinois soils are capable of producing average yields of 100 bushels of corn and 50 bushels of wheat an acre.

These yields are not hard to obtain under good soil management practices, says A. L. Lang, professor of soil fertility at the College of Agriculture.

The soil experiment field meetings were held to demonstrate land use, soil management and fertilizer practices. The work on the fields showed that production levels can be increased more than 50 per cent and in many cases by as much as 100 per cent by simple soil management methods.

The spring series of meetings began in Southern Illinois at the Brownstone Field in Fayette County May 13. The last meetings were held on July 1 at the Dixon and Joliet Experiment Fields in northern Illinois. The average attendance was nearly 125, with approximately 500 people attending the Brownstone meeting.

Lee County farm people gave agricultural public relations a new twist when they held open house for local businessmen at the Dixon Field Meeting. More than 100 businessmen and press people from the county visited the field in the morning, and then were entertained at a luncheon.

The University of Illinois department of agronomy is now working on a series of 11 fall meetings at the Soil Experiment Fields. These meetings will show the results of various soil management practices on corn, soybeans, legumes and grasses. First meeting will be at the Oblong Soil Experiment Field in Crawford County on August 24. The series will end on September 10 at the Joliet Field in Will County.

Use the right tool, keep it in good condition and use it correctly to prevent farm shop accidents, says a University of Illinois farm safety specialist.

tors in the detailed cost research project at the University, which has been continuous since 1912.

Profit, he says, is the income left over after paying all costs for labor, management and fertilizer to replace plant foods used by the crops, plus all expenses for machinery and land.

Your social security card is the symbol of your social security account. Show it to your employer, and be sure he has your name and account number copied right in his records. It's important for your family's future.

## Referendum on Wheat Quotas Set for July 23

Secretary of Agriculture Ezra Taft Benson has set July 23 as the date for a national referendum among growers on marketing quotas for the 1955 wheat crop. This reminder was issued today by Raymond Alvey, chairman of the local ASC committee. At least two-thirds of the growers voting must approve quotas before they may be put into effect.

"Under present supply conditions," the chairman stated, "Secretary Benson had no choice but to proclaim wheat quotas and call for a vote. Legislation directs the secretary to proclaim wheat quotas whenever the supply exceeds 20 percent of 'normal supply,' as calculated under provisions of the controlling legislation, as a year's domestic and export requirements plus 15 percent as a reserve. Actually, the available supply for 1954-55 is about 79 percent above normal."

If quotas are approved, Mr. Alvey explained, producers who comply with their farm wheat acreage allotments may market all the wheat they produce in any way they

## Polling Places For Referendum On Wheat Quotas

On July 23, at three polling places, wheat growers of Saline county will vote for or against marketing quotas for the 1955 crop.

The referendum, according to Raymond Alvey, chairman of the Saline county Agricultural Stabilization and Conservation committee, will determine whether or not the quota program now in effect will continue for next year's crop.

Two-thirds of those who vote must approve quotas before they can be put into operation. The current program, which was voted on a year ago, was approved by 87 percent of the voters — 390,221 to 57,536.

Chairman Alvey urges every eligible wheat grower in Saline county to vote. A producer is eligible to vote if he will have more than 15 acres of wheat on his farm for harvest in 1955. In other words, he can vote if he would be affected directly by quotas, which apply only to farms with more than 15 acres of wheat.

If quotas are approved, the full level of price support authorized for 1955 will be available for those who comply with their allotments. However, penalties will be imposed on any excess wheat on farms having over 15 acres and on which the allotment is exceeded. If quotas are not approved, there will be no quotas or marketing penalties, and price support for those who stay within their allotments will be at 50 per cent of parity. Farm allotment notices, as well as an explanatory leaflet giving the essential facts of the 1955 program, were sent out on July 15 to Saline county wheat growers of record.

The following voting places in the county will be open from 8 a. m. to 5 p. m. on Friday, July 23: City Hall, Harrisburg for the following townships: Harrisburg, Independence, Carrier Mills, Stone-

Galatia Township at Galatia for: Galatia, Tate, Long Branch, Raleigh, Brushy.

Townhouse at Cottage: Eldorado, Rector, Mountain, Cottage.

The part of the Alaska Highway which crosses Canada is the property of the Canadian government.

**IT'S MESS CALL**—Mama dog seems to wear a happy expression as she tries to feed her 16 new pups. There was so much crowding, that owner Douglas Edwards, of Albany, Ga., asked his neighbors to help feed the pups with milk administered through eye-droppers.

choose. They will also be eligible for the full level of price support which is authorized for the 1955 crop. Producers who are subject to the marketing quotas—those with more than 15 acres of wheat will lose their price support eligibility if they do not comply with their acreage allotments. They will also be subject to a marketing quota penalty on their excess wheat.

If quotas are disapproved, there will be no marketing quotas and no marketing penalties. Price supports would be at 50 percent of parity for those who comply with their acreage allotments which will continue in effect even if quotas should be voted down.

Eligibility for price support, with or without marketing quotas, will also require compliance with all crop allotments established for a farm in 1955. In addition, a "total acreage allotment" will be established for all farms where more than 10 acres are diverted from production of allotment crops. A producer will have to comply with the total acreage allotment if one is established for his farm, as well as with all individual crop allotments, in order to be eligible for price support on any crop.

These cross-compliance provisions are designed to assure more balanced production, without shifting surplus problems from one crop to another.

## Smith Arrives At Geneva Amid Warning by Reds

GENEVA—U. S. Undersecretary of State Walter Bedell Smith arrived here today from Washington and the Communists immediately warned that the Geneva peace talks may fail if the West adopts the American plan for a Southeast Asia security pact.

Reliable sources said Chinese Communist Premier Chou En-Lai delivered the warning to British Foreign Secretary Anthony Eden in a 90-minute super secret meeting. Eden immediately relayed the threat to Smith.

The sources said the Red Chinese premier and foreign minister insisted that all three Indochina states be "neutralized" after a ceasefire is negotiated in Geneva, a step that would automatically ban them from a Southeast Asia security pact.

British delegation officials refused to comment on the Chou-Eden talks, but informed sources said the meeting had run into "very heavy going" and that no progress had been made.

The arrival of the American diplomat touched off final, frantic efforts to break the deadlock caused by die-hard Communist refusal to treat at any point on their Indochina demands.

Time had almost run out for Mendes-France who has promised to resign if he does not achieve an "honorable peace" by Monday, and it was becoming obvious the Soviets would remain unyielding until the very deadline approached.

**Windy**  
In certain Antarctic region, the winds average 50 miles an hour the year round, and frequently blow for long stretches at more than 100 miles an hour, according to the Encyclopedia Britannica.

**WESTERN AUTO STORE STAFF**—Wayne Martin, manager, Patricia Ann Medley and Ed Barger (left to right), the new staff at the Western Auto store. Miss Medley, of Nashville, Tenn., is the daughter of J. A. Medley, owner of Western Auto and is spending her summer vacation in Harrisburg. She is a business major at the University of Tennessee. Mr. Martin was recently made store manager and Ed Barger is also a new employee.

## Social and Personal Items

**First Christian Ruth Gray**  
Class Meets At Charles Boyd Home For Ice Cream Supper

The Ruth Gray Sunday school class of the First Christian church held an ice cream supper at the home of Mr. and Mrs. Charles Boyd, Route 1, Carrier Mills.

Homemade ice cream and cake were served to Dr. and Mrs. Willard Rutherford, Carol and Paula Sue, Mr. and Mrs. Frank Patterson, Mrs. Gail Jackson, Linda and Janet, Mr. and Mrs. Clarence Aldridge, and Greta, Mr. and Mrs. Elmer McDowell, Mr. and Mrs. Cecil Harris, Susie and Sharon, Mr. and Mrs. Vance Brackney, Bill and Bob, Rev. Glen Daugherty and Glen Jr., Mrs. Bill Sloan, Mr. and Mrs. John Fuller, Mr. and Mrs. Stanley Wilson and Vickie, Mr. and Mrs. Alonzo Shewmake Jr. and Kenny, Mr. and Mrs. Don Moore, Mr. and Mrs. Harold Boatright and Doris Jean, Mrs. Bernice McMahon, Jerry Holden, Carolyn Boyd and the host and hostess.

Guests present were Miss Ruby Thomas, Mrs. Bernice Wise, Bob Daugherty, Johnston City, and Mary Frances Denean, Columbia, Ohio. The August meeting will be a potluck at Mrs. Bill Sloan's cabin at Big Lake.

**Baptist Pauline Moore Circle**  
Has Missionary Program  
Mrs. Charles Swanson was hostess Thursday evening to the Pauline Moore circle of the First Baptist church.

The program, conducted by Mrs. James Sowers, was entitled "Seed-time in the Philippines" and the theme "A Sinful World—A Sufficient Savior." The topic, "Seed-time in the Philippines" was given by Mrs. Sowers after which Mrs. Ronnie Ziegler offered prayer.

Mrs. Joe Morman, wife of the pastor of the First Baptist church, talked on the subject, "The Land Through the Years." "Southern Baptists Go Into the Philippines" was given by Mrs. Swanson, and "Little Harvest Glimpses" by Miss Marveen Thomas. Mrs. Ziegler gave the closing topic on "How Will the Harvest Come?"

Following a short business meeting Mrs. Pat Gilley gave a chapter from the missionary book, "Dauntless Women," on David and Mary Livingston, missionaries in Africa around the 1850's.

Refreshments of dainty open face sandwiches, potato chips and pink lemonade were served at the close of the meeting.

**V. F. W. Auxiliary Meets**  
With Mrs. Olive Blackman  
Thursday night a group of members of the Auxiliary to the V. F. W. met at the home of Mrs. Olive J. Blackman to honor her on the occasion of her birthday.

Since Mrs. Blackman has been confined to her home for the past three years as a result of an injury, the group knowing that her supply of knitting yarn was exhausted, gave her a shower of yarn which she appreciated very much.

Ice cream and cake were served to the following: Mesdames Harry Barter, Earl Hancock, Hollie Stout, Bud Fink, Roscoe Cook, Quinn Stuby, Clyde Webb, Blake Johnson, and Joe Johnson and Olive Blackman.

**Guitarist Is Shot While Saving Child from Gunman**

CHICAGO (UPI)—A radio station guitarist was in "fair" condition today after being shot in the chest when he leaped in front of a gunman who threatened to shoot a child.

Dario Bonetti, 45, employed by station WIBC, was picnicking with Mrs. Grace Gutowski, 23, former announcer at the station, and her 5-year-old son, Donald, when a man approached with a pistol.

The gunman, Mrs. Gutowski said, told them "give me your wallet or I'll shoot the boy."

Bonetti leaped between the gunman and Donald and the man fired, hitting Bonetti in the chest.

**Delta Theta Tau Chapter Has Picnic at C. L. Petty Home**

The members of the Delta Theta Tau chapter met recently at the home of Mr. and Mrs. C. L. Petty for a picnic supper on the lawn.

Co-hostesses were Mrs. Sam Leberman and Mrs. T. Y. Gregg Jr.

After the meal the group participated in a scavenger hunt with Mrs. Pat Sullivan, Mrs. J. D. Barter Jr., and Mrs. Tom Fife winning prizes.

Mrs. Dixie Lou Holden was a guest. Other members present were Mrs. Robert Rushing, Mrs. John VanderPlum, Mrs. Donald Raymer, Mrs. Ronald Darnell, Mrs. Tom Indict, Mrs. Bill Tom Rees, Mrs. Gean Hanselman, Mrs. John Humm, Mrs. Kenneth Ozmert, Mrs. Nelson Pankey, Mrs. Morris Skeegs, Mrs. John Slighton, Miss Barbara Thompson, Mrs. Kenneth Vinyard and Mrs. Ron Ziegler.

Mrs. Roy Riegel, who fell July 5 and broke her hip and also underwent surgery, has been moved from the Lighter hospital to the home of her daughter, Mrs. Marie Evans, on Harrisburg Route 1. She is now able to receive visitors. Mr. and Mrs. Riegel are owners and operators of the Pine Rest motel west of Harrisburg.

Mr. and Mrs. Bertis Herrmann and children, Cindy and Debbie, and Mr. and Mrs. Melton Evans and baby, Cathy Jo, left this morning early for a visit with Mr. Evans' folk in New Orleans, La.

**Correction**  
The wedding of Miss Marilyn Nichols, Vandalia, and Bill Dabney Jr., Harrisburg, was performed June 12 in the Second Baptist church in Vandalia by the Rev. Warren Littleford of Ector, Tex.

## May Ask Contempt Citations Against Oak Ridge Pickets

OAK RIDGE, Tenn. (AP)—Picketing that has halted construction at two vast atomic projects continued in spite of a court injunction today and government contractors considered asking for contempt citations.

Sheriffs of four counties Friday toured six big gates along the 40-mile border of the government atomic reservation to read the injunction aloud to picketing members of an AFL Laborers' union.

Some 2,000 AFL Laborers began the strike last Monday and by mid-week their picketing had spread the work stoppage to 6,000 members of six other AFL crafts, forcing the contractors to shut down.

The laborers staged the strike termed unauthorized by both local and national union headquarters after officials of the seven crafts had agreed to accept a five-to-10-cent hourly wage increase. The laborers held out for 15 cents, plus \$2 daily travel pay increases.

## Pettipool Rites Held at Ridgway

The funeral of Samuel Pettipool, former resident of Harrisburg and Carrier Mills who died Wednesday in the White County Nursing home in Carmi, was today at 2 p. m. at the T. B. Smith funeral home in Ridgway.

Rev. Joseph Harris officiated, and burial was in the Union Ridge cemetery.

## (1) Notices

**Notice of Sale of Real Estate For Taxes or Special Assessments; and Notice of Filing Petition For Order To Issue Tax Deed**

To: Wesson Coal Company, a corporation, and J. W. Edmond, J. W. Edmond, deceased, unknown heirs and devisees of J. W. Edmond, deceased, and unknown owners.

You and each of you are hereby notified that on the 13th day of October, A. D. 1952, the County Court of Saline County, Illinois, entered a judgment and order of sale upon delinquent lands and lots, and fixed the correct amount of tax paid under protest, in the County of Saline and State of Illinois for the year 1951, and prior years; that J. Ed McCue, on the 20th day of October, A. D. 1952, at the sale ordered in said proceedings, which sale was held by the County Collector of said Saline County, on the day aforesaid, at the Courthouse, in the City of Harrisburg, in the County of Saline and State of Illinois, purchased said delinquent lands for the taxes, interests, penalties, and costs due and unpaid for the year 1951 and prior years; and that such delinquent lands and lots so purchased are more particularly described as follows:

The coal underlying the Southwest Quarter of Section Three (3), Township Nine (9), South, Range Seven (7) East of the Third Principal Meridian, situated in Saline County, Illinois, and being 40 acres, more or less.

Such real estate so purchased was last taxed in the name of J. W. Edmond. The time for redemption of said real estate will expire on the 20th day of October, A. D. 1954.

On the 16th day of July, A. D. 1954, the undersigned as Executor of the Last Will and Testament of John Edgar McCue, deceased, filed a Petition in the County Court of Saline County, Illinois, in the same proceeding in which the aforesaid judgment and order of sale was entered, and in said petition prayed that the Court enter an order directing the County Clerk to issue a tax deed to the undersigned if the real estate shall not be redeemed from the sale; and the undersigned intends to make an application to the Court on the 21st day of October, A. D. 1954, at the hour of ten o'clock in the forenoon, for an order on said Petition that a deed issue to the undersigned if the real estate shall not be redeemed from the sale.

**French Send More Troops to Tunisia**

TUNIS, Tunisia (AP) — France ordered new troops today to go immediately to Tunisia to help General Pierre Vozard carry out his campaign to end terrorist violence in the protectorate.

Military officials said a tactical group of the 14th Infantry Regiment was being sent to help maintain order.

Some elements already were reported in Marseilles awaiting embarkation.

Authoritative Paris sources also said Habib Bourguiba, exiled leader of Tunisia's nationalist Neo-Destour party, will be moved from an island off Brittany where he has been held.

Bourguiba, whose exile helped stir nationalism, is expected to be given a residence somewhere in the center of France.

## New Record of 30 Oil Operations in County

(Continued from Page One)

the test and was digging today below 1100 feet.

Mr. Grandin's No. 1 and 2 D. T. Reeder, et al, are both still locations.

Three miles due east of Eldorado, Miami Operating No. 1 Stanley Edmister, et al, SE SE SW, 13-8-76, is pump testing the Cypress 2502-24 after flowing a fracture treatment. They also have very commercial Tar Springs sand 2166-94 in the hole, but will probably not be produced. They will probably drill a twin well to test the Tar Springs sand, at a later date.

The No. 1 Patton-Mathias, SE NE SE, 14-8-76, one half mile northwest is drilling today at 2675 with Herndon's rotary tools. They took a drill stem test from 2194-2204 on the Tar Springs and recovered 10 feet of gas, 15 feet of oil mixed mud, 65 feet of salty oil mixed mud and 90 feet of salt water.

**Test Slow Heirs Well**  
The same operator's No. 1 Flora Garrett, SE NW SE, also in section 14-8-76, is still a location that will probably be drilled next.

Just northwest of Eldorado, Byron Rucker and Bud Rue's No. 1 Slow Heirs, 17-8-76, is testing the Aux Vases sand 2912-28 on the pump. The Tar Springs 2246-71 swabbed over 300 barrels of salt water in 12 hours with a slight trace of oil after fracturing.

Their No. 1 J. Bootin Heirs, SE SW NW, is cleaning out to test the Tar Springs 2263-71 after a drill stem test recovered 660 feet of gas, 100 feet of oil mixed mud, in the Palestine sand 2000-22. A test of the Tar Springs recovered gas in 40 minutes with 15 feet of clean oil, and 50 feet of mud mixed oil.

The same operator's No. 1 Slow Hardy Unit, is a location to be drilled later.

In 17-8-76, Illinois Mid Continent has staked two more locations on the Leslie Stinson farm, No. 2 in the SW SE NW, and the No. 3 in the NW NE SW. Both are locations.

Pop Drilling and Frank King is drilling below surface casing on their No. 2 George Watson, NW NE NE, 18-8-76, in the same area.

**Install Pumping Equipment**  
Nash Redwine is having trouble with his No. 1 Ruth Stinson, SE NW NE, 20-8-76. He attempted to fracture the Aux Vases sand 2884-2904, but the causal plug in the bottom of the hole didn't hold, and he couldn't swab any oil, then he plugged back to the Paint Creek sand 2706-26 which is highly saturated, and is now fracturing that oil saturation.

John Stelle and Associates have installed pumping equipment to complete their No. 3 John J. Jones, SE NE SW, in both the Paint Creek sand 2688-99 and the Aux Vases sand 2868-78. It swabbed oil at the rate of 185 barrels a day after fracturing both the sands.

Their No. 2 Claud Brown, et al, and No. 1 Choussier-Cole are both still locations that probably won't be drilled for the next few weeks.

Two miles east of Eldorado, Walter Duncan and Calvert Drilling are digging ahead at 2715 on their No. 1 Adams-Simpson, NW NW NE 23-8-76, after a drill stem test of the Tar Springs 2183-88 recovered 25 feet of mud with a slight show of oil.

In the same area, G. L. Reaser is testing the Cypress 2526-55 on his No. 2 E. C. Scott, NW NE SE, and has set casing on his No. 1 George Shaver, et al. His No. 1 Melton, SW NW SW, is a location not yet drilled.

In 8-9-66, Dean and Hallowell, consulting geologists of Carmi, and Southern Development Company haven't started drilling yet on their No. 1 Oscar Taylor, SE SE NW, one mile northwest of Harrisburg. Murvin and Stecher of Olney will cut the hole with their rotary tools.

Three miles south of Harrisburg, J. F. Ashoff, Jr., is drilling around 1447 with cable tools on his No. 1 A. L. Smith, 2-10-66, after running casing attempting to stop the hole from caving in on their tools.

Some elements already were reported in Marseilles awaiting embarkation.

Authoritative Paris sources also said Habib Bourguiba, exiled leader of Tunisia's nationalist Neo-Destour party, will be moved from an island off Brittany where he has been held.

Bourguiba, whose exile helped stir nationalism, is expected to be given a residence somewhere in the center of France.

## Assessment List

Herewith is a list of real estate and personal property assessments as made by the township assessor of Cottage township and returned to PAUL HILLIARD, County Treasurer and Supervisor of Assessments of Saline County, Illinois.

The assessed values shown are subject to revision by the Saline County Board of Review and to equalization by the State Department of Revenue. Under Provisions of Section 146 of the Illinois Revenue Act of 1939 as amended in 1945, the Department of Revenue is required to determine the percentage relationship within each county of assessed value and the estimated full, fair cash value. Upon the basis of such data, the Department is required to raise or lower the total locally assessed values so that all such property will be assessed at its full, fair cash value.

These equalized values then become the base for tax extension for 1954 taxes, payable in 1955, and indicate the full, fair cash value of the properties assessed, based on the assessed values as made by the local assessment officials.

This publication, which is made in accordance with section 103 of the Revenue Act, serves as public notice to the taxpayers of the County of assessed values fixed upon their property by the township assessors.

PAUL HILLIARD,  
County Treasurer and  
Ex-Officio SUPERVISOR  
OF ASSESSMENTS,  
SALINE COUNTY,

Worship service Saturday 11 a. m.

## "OH, FOR PEACE AND QUIET!"

Whether you are a businessman or a housewife, a fellow who makes the wheels go 'round, or a woman in industry, there come times when you long for peace and quiet.

You'll find quiet in woods like these, but not a silence. The wind whispers through the trees. Birds murmur softly. Insects squeak tunelessly. The soft lap-lap of water against the shore is like distant drumbeats. There is infinite peace, but never silence.

Much closer to you is another haven of peace—your church. Here too you will find quiet, but no dead, spiritless silence.

Instead you will find relief from your worries, and inspiration to keep doing your best. You will find the friendliness of others like you seeking inspiration in these troubled times.

For the peace and quiet that will carry you serenely through the week, go to Church Sunday.

## THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor in our life for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For the sake of his community and nation. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

	Book	Chapter	Verses
Sunday	Isaiah	30	15-21
Monday	Isaiah	65	12-25
Tuesday	Zechariah	4	6-10
Wednesday	John	14	21-27
Thursday	John	20	19-29
Friday	Galatians	5	16-26
Saturday	Philippians	4	4-9

## Sunday School Lesson

By Dr. Archie E. Brown  
Pastor First Baptist Church  
Vandalia, Ill.

### "Growing Through Bible Study"

Acts 17:10, 11; 1 Tim. 4:13-16; 11 Tim. 2:15; 3:14-17; Heb. 4:12  
GOLDEN TEXT: "All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: that the man of God may be perfect, thoroughly furnished unto all good works." (11 Timothy 3:16-17)

INTRODUCTION—In this series of lessons we are interested in Christian growth. Growing spiritually is of primary importance to the follower of Christ. The study of God's Word, the Bible, is of absolute necessity. His word is to spiritual growth what food and water are to physical growth. The real reason why so many Christians remain "babes in Christ" is that they do not feed their souls upon the Word of God daily.

I. SEARCHING BRINGS KNOWLEDGE (Acts 17:10-11)  
Paul and Silas went to Berea to preach the gospel. The people of Berea opened their Bibles and searched the scriptures as Paul and Silas preached. These verses tell us that they "examined their scriptures daily to see if these things were so." They were not going to be fooled even by Paul and Silas. My! what a difference it would make today if Christian people would follow this example. It would not only cause them to grow but it would put every preacher and teacher on his toes. It would do away with much false teaching abroad in our land today.

II. STUDY PREPARES FOR SERVICE (1 Timothy 4:13-16)  
The Christian who studies daily his Bible is able to teach others concerning spiritual things. The minister has the gift of the Holy Spirit to lead him as he studies and teaches. Paul admonished young Timothy not to neglect his gift. The Christian is to give himself wholly to the Christian life. The minister is to apply himself wholly to the task of serving God and his fellow man. He has a full-time job. He is the means of the

salvation of countless numbers of eternal souls through diligent service.

III. STUDY: WORKMAN APPROVED (11 Timothy 2:15)  
No matter what your work, you should do your very best. This is especially true in the spiritual kingdom. "Study to shew thyself approved unto God, a workman that needeth not to be ashamed; rightly dividing the word of truth." God has approved his workmen. Therefore, no Christian need to be ashamed as he teaches the Word of God or witnesses for Christ.

To be able to serve God successfully one must prepare himself to the very best of his knowledge. A minister should get all the education possible. Then he should dedicate that education wholly to the Lord. Any Christian should never be ashamed to witness for Christ. This kind of person is in position to "rightly divide the Word of truth."

IV. STUDY GIVES ASSURANCE (11 Timothy 3:14-17)  
Verse 16 says: "All scripture is given by inspiration of God." The Bible is inspired by God. It is His sure word. Any Christian can build a solid foundation for his life by studying it. Timothy has been influenced from childhood by the Bible because of his Christian mother and grandmother. What a blessed privilege for any child!

V. THE TWO-EDGED SWORD (Hebrews 4:12)  
The Word of God is like a "two-edged sword." It pierces into the very heart of the one who studies it. The scriptures become the critic of the one who studies them. The Bible is like a mirror. One sees himself as he actually is as he reads God's Word.

CONCLUSION—Christian growth is tremendously important. No person will grow spiritually unless he studies God's Word, the Bible, daily. You have a Bible in your home. Study it, and grow!

### First Baptist

Rev. R. J. Morgan, pastor  
Bible school 9:30 a. m.; F. G. Burnett, superintendent.  
Morning worship, broadcast on WEBQ, 10:45. The pastor will bring the message. Special speaker for the dedication of the educational building will be Wheeler Thompson, state Sunday school secretary from Carbondale.
